Advice to Mothers
Have you had baby's photograph taken? It's an art to take baby's photograph as it should be taken. To catch his rosy little nose, his pretty little dimple. Such photographs become prized possessions of babyhood's days in years to come. We have had years of experience in photographing children. They always look their best when we take them. No troublesome posing. Snap them in a jiffy.

CITY'S FOURTH OF JULY PROGRAMME

Park Commissioners Prepare to Receive Big Crowd at Mohegan Park—Band Concert at the Lake—Interesting Sight at Aviary—Fireworks on West Side.

People who have not planned to go away from town on the Fourth of July will have a day of complete entertainment by visiting Mohegan park. The court of common council has not arranged any public programme for the day's celebration, as it did not seem advisable to make the park the assembling place for folks coming from every section of the town, and the chief aim is to have visitors spend the day at this cool and quiet pleasure ground, which belongs to the people, and which they will fully appreciate if they form the habit of spending their spare time there.

The children will be pleased with the new-comers to the park, there being 27 young pheasants, just hatched. Of these two are gold pheasants, nine are silver, and the rest English ring-necked. The brood of 14 ducks, now about a month old, has been moved over from the small pond to the lake, and is busy all day swimming about and diving for food.

Supper will be served on the grounds about the lake in first-class order for the holiday and has repaired the raft so that the boys will have the use of this particular attraction at the bathing beach.

Later in the afternoon will be the exclusive privilege of furnishing refreshments, in order that everything will be first-class for those who do not care to have the bother of carrying lunches. There will be special police attendance in the different sections, and the best of order is assured.

Tubbs' Military band will give a concert from 3.30 to 4.30, at the lake, and the morning of that day programme for the occasion.

The programme for the concert during the afternoon in the pavilion at the lake is as follows:

On the West Side there is to be a display of fireworks in the evening, through the efforts of a self-appointed committee. They succeeded in raising a sum of money large enough to provide for a creditable display which, it is expected, will take up about two hours of the evening, beginning at 8.30. It was shot in the third of the lot of the Elmer Leather company so that the descending sparks, rocket stars and other pieces will fall into Yantic cove.
